"THE FINGER OF JUSTICE"

READ WHAT THE MAYOR OF SEATTLE SAYS ABOUT IT

Men whose names are nationally known endorse "The Finger of Justice." This tense dramatic picture, produced by the Rev. Paul Smith, has earned unstinted approval through the very force of the doctrine it preaches. Press, pulpit and civic bodies all unite in commending "The Finger of Justice."

Mayor Ole Hanson of Seattle, Wash., terms "The Finger of Justice" a message that will aid authorities in bringing about better conditions in city life. Mayor Hanson writes as follows to Rev. Paul Smith:

"I enjoyed very much your great reform picture, 'The Finger of Justice.' It is wholesome, clean, and its message will aid the authorities in their efforts to bring about better conditions in city life.

"That any state should allow profit to be made of vice is unspeakable. The 'red light' district is a relic of ignorance and barbarism, a breeding place for poverty, crime, blindness, and wretchedness. I am wholly in favor of any progress which will aid the fallen and keep others from falling.
